GREENCO MISSION, VISION & PURPOSE

Help Indian industry make a substantial improvement in their environmental performance there by saving both natural and financial resources

Mission

Purpose

Make India one of the Global Leaders in Green Businesses

Vision

GreenCo rating system aspires to be Indian industry's benchmark for environmental performance

“ It is imperative for industry leaders to adapt and adopt to environmental sustainability and GreenCo rating system is helping organizations to imbibe green practises into their business models ”

Dear Friends,

The earth is at a tipping point where curtailing the global greenhouse emissions is more than mandatory. To have a sustainable human existence, rise in global surface temperature must be within 1.5C, while the status quo dictates a rise by 4.5C. Similarly, increasing material intensity and waste generation means that the resource scarcity is rising with water rapidly becoming a scarce resource.

It is imperative for industry leaders to adapt and adopt to environmental sustainability and GreenCo rating system is helping organizations to imbibe green practises into their business models. We are very glad to see that the GreenCo is gaining acceptance from all sectors of Indian industry as well as the Regulatory Bodies.

The MoUs with Indian Railways, Rajasthan State Pollution Control Board (RSPCB) is a testament to this. It is heartening to note that GreenCo rated companies have saved more than 630 million kWh of electricity, have installed combined renewable energy projects of 750 MW and saved more than ₹ 1257 crore (181 million USD).

In 2019, GreenCo rating system has also received international recognition in terms of inclusion into International Trade Centre - Sustainability Map, a list of Voluntary Sustainability Standards which are contributing towards attaining of United Nations-Sustainable Development Goals.

I heartily congratulate Mr Pradeep Bhargava, GreenCo Forum Chairs and Co-Chairs for taking up this initiative close to heart and turning into a nation-wide movement. With the kind of zeal and support we have received, I am sure that our target of 1000 companies by 2022 is well within reach.

We look forward to your cooperation in making GreenCo rating system a bedrock for greener India.

A handwritten signature in black ink, which appears to read 'Jamshyd N Godrej'. The signature is fluid and cursive.

Regards,

Jamshyd N Godrej

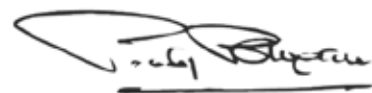

Dear Friends,

Globally, industries and governments are turning their attention to a sustainable way of existence and growth. There is no doubt, today, that green initiatives are helping the growth rather than hindering it. Hence, companies are increasingly looking at environmental standards as a long-term investment rather than a cost. On the market side, growing consciousness of customers for a green brand is driving the companies to subscribe to the environmental standards which can provide Green Image. The growth in the GreenCo rating system is a clear testament to that.

Today more than 550 companies are working on GreenCo rating system. It is prodigious to see that GreenCo has been ardent at solving material issues in environment as identified by the industry. Furthermore, GreenCo is also being used by companies as cost savings tool with an industry average payback period of less than 2 years.

GreenCo rating system has spread across the country with more than 18 sectors imbibing GreenCo into their management system. While this year, GreenCo increased its footprint in various industry sectors such as Automotive, Railways and Cement, 2018-19 also marked the foray of GreenCo into cornerstone industries such as Refineries, Textiles and Petrochemicals. Similarly, GreenCo SME rating has evinced great response from both the independent SMEs as well as partners of Green Supply Chain projects of bigger companies.

As GreenCo is reaching new heights, it gives me an immense satisfaction to see that GreenCo journey is contributing to the national goals while adding fuel to the hope for a better and greener tomorrow.

Regards,

Pradeep Bhargava

“Companies are increasingly looking at environmental standards as a long-term investment rather than a cost. The growth in the GreenCo rating system is a clear testament to that”

“Fostering and promoting initiatives like GreenCo Rating System will enable India to become a global benchmark for sustainable development and environmental conservation.”

Dear Friends,

India@75 is an aspirational vision set by CII that will shape the new world order through economic strength, technological vitality and moral leadership. Environmental sustainability is one of the focus areas of India@75.

Fostering and promoting initiatives like GreenCo Rating System will enable India to become a global benchmark for sustainable development and environmental conservation. I am happy to witness how GreenCo rating is enabling organizations optimize their energy requirement, carbon footprint and waste generation over their entire life cycle.

In days to come, GreenCo rating will soon become a well-recognised tool for measuring environmental footprint of the industry. CII will continue to play a catalytic role in equipping Indian industry gain the competitive advantage.

A handwritten signature in blue ink, which appears to read 'Chandrajit Banerjee'.

Chandrajit Banerjee

GreenCo Achievements

Industry is the primary stakeholder for GreenCo and its views are important for gauging the acceptance of GreenCo.

GreenCo is at forefront of generating value for the industry and environment. GreenCo has been successful at linking environmental sustainability with cost benefits for industry.

Tangible value in terms of cost benefits and Green image has been one of the primary benefits for industry for taking up the GreenCo rating system.

GREENCO BENEFITS - *for Large Companies*

A total of ₹ 1257 crores of saving has been reported by the GreenCo rated companies in 2018-19. An industry average payback period of 1.9 years was reported for budget spent on GreenCo and its associated projects. This implies

Apart from this, various other benefits in terms of GHG mitigation, carbon sequestration, water savings, energy savings, material recovery have been achieved by GreenCo companies. Apart from cost benefits, these savings have also contributed to reduction of environmental footprint of the Indian industry.

GreenCo rating system has received patronage of industry and industry leaders have been vocal about benefits of GreenCo. While, the benefits gained by the industries was a result of their firm and focused implementation of the GreenCo rating system, many have chosen good words for the rating system. A few of the many testimonials we received are presented here.

T V Narendran - Tata Steel

"Tata steel is privileged to get the CII GreenCo platinum rating. This is a great recognition of the efforts we have put in over the years. I think we realize that this make us a role model and that we also realize the responsibility that comes with it. We will continue to raise the bar on this"

Vikram Kasbekar - Hero Motocorp

"We started our association with GreenCo in 2015, the good part about GreenCo is that they do end to end, not just environment but the entire parameters which would help us in ensuring that our business is also successful. I am sure that GreenCo will facilitate the Indian industry in becoming a global leader in Green initiatives"

Sanjay Kirloskar - Kirloskar Brothers Limited

"Collaboration or cooperation with CII has helped us a great deal. Here we found the CII Green Co framework very useful. We have four of our plants are rated under GreenCo Our oldest plant is 106 years old, but with the GreenCo framework we were able to bring it up to a good level of environmental performance."

A K Tiwari - Indian Railways

"Indian Railways has been the wheels of development for our nation. With more than 40 units rated under GreenCo, these wheels are now also moving towards meeting NDC target of 33% reduction in carbon intensity (By year 2030 with respect to base year 2005)"

K Ananda Rao - HPCL

"Oil industry by nature, acts as a fulcrum between country's energy security, economic growth and climate change. HPCL is the First Public Sector Undertaking to adopt GreenCo. GreenCo approach has reinforced our belief that we can simultaneously strive towards reducing environmental impact while contributing to the national agenda and increasing operational efficiencies."

Accelerating GreenCo Movement

The success achieved by GreenCo is mainly due to the support of the industry. And this support wouldn't have been made possible if not for GreenCo Movement.

GreenCo Movement is the development in the perception of environmental sustainability brought about by combination of GreenCo Awareness Sessions, GreenCo Forums, GreenCo summits and many more.

GREENCO SUMMITS

GreenCo's flagship event- GreenCo Summit is organized every year in the months of June-July. The summit acts as a sounding board for the leaders of environmental sustainability and tech-pioneers for promotion of sustainable business practises. It opens avenues for new partnerships, learnings through empowering dialogues and scintillating discussions.

60+

Speakers

25+

Exhibitors

550+

Delegates

Apart from the flagship summit, GreenCo team conducts specialized events such as Waste Management Summit, Green Packaging Conference which addresses the specific needs of industry. These events spread more awareness and give an in-depth view of the subject addressed. Waste Management Summit, alike GreenCo Summit, also provides a podium for honouring GreenCo awardees

GREENCO MISSION

GreenCo team conducts regular visits to GreenCo rated companies called the GreenCo Missions. Forward thinking GreenCo companies encourage their peers to visit the factory and learn the substantial practices GreenCo rating has created in their style of working. GreenCo Missions are requested to the top-rated GreenCo rating companies in each sector and the company's management team is invited to share their GreenCo implementation journey.

GREENCO FORUM

GreenCo Forums are the avenues for clients to share the GreenCo journey with the industry. GreenCo, via its 7 forums aims to create common platform for the industries to interact and develop bonding to strengthen the GreenCo movement.

Every forum meets triannual basis with a plant visit hosted by one of the GreenCo rated company. GreenCo forum, also, plays the role of connecting technology providers with the requirements in the industry, thus, providing much needed 'foot in the door' for entrepreneurs with products/services benefitting the environment.

GREENCO ASSESSOR PANEL

GreenCo Assessor Panel is the team of all the senior industry professionals accredited for GreenCo Assessment. These professionals are senior industry professionals, consultants, academicians or subject matter experts. Assessors, as a part of GreenCo Assessor Panel, shall be at least trained once a year in GreenCo and latest revisions of guidelines.

GREENCO FACILITATORS

CII-Godrej GBC has taken initiative to develop “GreenCo Facilitators” who provide assistance and guidance to companies in implementing GreenCo Rating System as well as meeting its requirements, along with the CII – Godrej GBC technical team. The GreenCo Facilitators are represented by eminent industry personnel, academicians, independent consultants, who have the technical brilliance, excellent managerial capability and played distinguished leadership role in the area of Environmental Sustainability.

GREENCO AWARENESS PROGRAMS

GreenCo rating system is all about holistic development. Hence, GreenCo awareness programs are conducted in tier 2 and 3 cities to provide that visibility to the rating system. Various industries from tier 2 and tier 3 cities are interested in attending the awareness program and these companies are made aware of the importance and benefits of environmental sustainability.

Road Ahead

To achieve GreenCo's vision to be the go-to benchmark for green business, there are targets set and strategy in place.

PLAN 2022

GreenCo Platinum Plus

GreenCo Platinum Plus is a challenging set of requirements that is exclusively designed for GreenCo Platinum rated companies. Platinum plus is introduced with an objective of motivating Platinum companies to maintain their world class status by continuously improving their environmental performance. With GreenCo Platinum as the minimum requirement, platinum plus poses several stringent requirements for GreenCo companies to meet.

GreenCo Facilitation

GreenCo, in its holistic nature, addresses all important aspects of environmental sustainability. Going ahead, with a target of 1000 companies by 2022, GreenCo will facilitate companies meet requirements such as green supply chain, zero-waste-to-landfill status, energy efficiency, water neutrality, carbon neutrality, life cycle assessment and extended producer responsibility. GreenCo companies will directly benefit out of the extended facilitation by GreenCo.

GreenCo Accredited Professional

GreenCo aims to enhance knowledge and build capacities of the industry to face global green standards. The GreenCo Accredited Professional program is aimed at encouraging continued learning and green skills development for industry professionals. The program is set to run all through the year encouraging more participation from the industry.

GREENCO EDUCATION

Hussain Shariyarr

CII-GBC & Head - Manufacturing Function, Senior Vice President - Operations Godrej Appliances

About Us

Our team and our values are the most important asset that GreenCo has. With the support from industry and CII, our team dedicated to the cause of greening the Indian industry.

ABOUT - CII - Sohrabji Godrej Green Business Centre.

CII – Sohrabji Godrej Green Business Centre (CII - GBC) is one of the 10 Centres of Excellences of the Confederation of Indian Industry (CII).

CII-Sohrabji Godrej Green Business Centre offers advisory services in environmental issues and policies. The Services of Green Business Centre include- Energy Management, Green Buildings, Green Companies, Renewable Energy, GHG Inventorization, Green Product Certification, Waste Management and Cleaner Production Process. CII-Godrej GBC works closely with the stakeholders in facilitating India emerge as one of the global leaders in Green Business by the year 2022.

The Centre is housed in Hyderabad and is one of the greenest buildings in the world. The Centre was inaugurated by H.E Dr A P J Abdul Kalam, the then President of India, on July 14, 2004.

Under the aegis of Green Business Centre, there are five councils having expertise in five different parameters of environmental sustainability. These councils are headed by stalwarts of Indian industry who have emotional and professional connect with the respective subject matters. The five councils are

CII - GBC TO DATE

GBC PARTNERSHIPS

With number of businesses going green on the rise and several initiatives in different areas evoke a spark in an individual's mind on "How Green is the Company". A clear holistic mechanism is presently not available to evaluate the performance of companies on ecological front. Against this background, CII, through extensive stakeholder consultation and interaction with experts has developed the 'GreenCo rating' system for evaluating the 'greenness of companies'.

The Green Rating System will act as a milestone for companies pursuing green to assess where they stand and help in defining the path forward.

Benefits of GreenCo

The implementation of GreenCo rating offers the following benefits to companies:

- Provides multiple conservation benefits - Energy, Environmental and Resource
- Builds world class competitiveness and provides new opportunities for cost reduction
- Enhances Corporate Green image
- Helps implement the latest sustainability concepts and global best practices
- Makes companies future ready, to meet stricter environmental needs / regulations
- Enhances credibility & creates transparency among stakeholders
- Extensive capacity building with the involvement of cross functional team
- Helps understand where the company stands compared to peers, competitors & benchmarks
- Excellent tool for top management to monitor green performance
- Builds strong long-term roadmap for ecologically sustainable business growth
- Drives innovation

Rating System

The Green Company rating system advocates a performance based approach. It is unique due to its high performance oriented approach, with 70% weightage to performance and results achieved and 30% weightage to the systems adopted. The various performance parameters and levels of the rating system are as illustrated.

Parameter	Weightage (Points)
Energy Efficiency	150
Water Conservation	100
Renewable Energy	100
Greenhouse Gases Emissions	100
Waste Management	100
Material Conservation, Recycling and Recyclability	100
Green Supply Chain	100
Product Stewardship & Life Cycle Aspects	125
Innovation for Environment	50
Green Infrastructure & Ecology	75
Total	1000

GreenCo Rating Levels

GreenCo Applicability

GreenCo is a facility level rating system, applicable for industries with more than three years of operational data. GreenCo is applicable to all manufacturing and service sectors. As of today GreenCo rated companies are spread across most of the manufacturing sectors – automobile, Cement, Chemical, Engineering, Fertilizer, FMCG, Foundry, Iron & Steel, Pharmaceuticals, Paints, Pulp & Paper, Pertochemical – downstream, Refineries, Sugar, Textile. GreenCo ratings in service sector pan Airports, IT & IT Services

GREENCO & ENVIRONMENT COUNCIL

GreenCo & Environment Council (also GreenCo Council) is the council comprising of the representatives of the industry leaders who are leading the initiative at the industry level. Eminent leaders from the industry are invited to be a part of GreenCo Council. GreenCo Council meets every year during GreenCo Summit

GreenCo International Recognition

United Nations Industrial Development Organization (UNIDO) has acknowledged GreenCo as one of the top 50 best practices in the World promoting green industry initiatives.

GreenCo Rating is listed by United Nations – International Trade Center (ITC) as a voluntary rating from India promoting sustainability (Sustainability Map).

GreenCo Star Performer Award

GreenCo rated companies have been implementing various innovative and unique projects in several environmental aspects to sustain and strengthen their GreenCo initiatives. CII-GBC would like to recognize those industries that have excelled in their green journey through “ GreenCo Star Performer Award 2019” .

The objective of the ‘GreenCo Star Performer Award 2019’ is to acknowledge those industries that have enhanced their GreenCo performance and also to encourage continued efforts in improving their environmental performance.

CII Environmental Best Practices Award

CII in its endeavor to encourage, support and applaud the efforts taken by Indian industry towards conservation of natural resources as well as pollution prevention initiatives has been organizing “ CII Environmental Best Practices Award” annually. The key objectives of the award are;

- ❖ Recognize and award “Environmental Best Practices”, implemented by Indian companies
- ❖ Facilitate information sharing amongst industry
- ❖ Trigger a sense of competition, to motivate other companies to implement best practices

Over the years, this program has achieved overwhelming response through participation of companies from different sectors like Engineering, Automobile, Paper, Cement, FMCG, Chemical & Pharmaceutical, Textile, IT and Service, Steel, Sugar etc.

GreenCo Advantage

Materiality survey was conducted to our primary stakeholder - industry, to gauge how important are environmental sustainability and its related issues to them.

The advantage of GreenCo rating system is not only tangible, such as costs, which companies gain along with the GreenCo journey. But GreenCo rating system is also considered a strategic tool by the companies to mitigate risks associated with environment. Many of the material issues pointed out in the materiality survey are being addressed by the GreenCo.

Furthermore, a survey was conducted with the GreenCo companies. The survey results concrete our hypothesis that GreenCo is used as a strategic tool and not just positioned as a voluntary sustainability standard. Apart from obvious cost benefits, GreenCo also provided a management framework for addressing environment, holistically.

Tata Motors' Sanand and Pantnagar Plants Honoured with GreenCo Platinum Certification

The coveted GreenCo Platinum Certification was based on the recently concluded assessment by a two-step evaluation process based on ten environmental parameters such as Water Management, Water Conservation, Energy Efficiency, Green Supply Chain, Life Cycle Assessment, GHG mitigation, Product Stewardship, Material Conservation, Recycling and Recyclability, Renewable Energy and Others.

NEW DELHI: Tata Motors on Monday announced that its Sanand and Pantnagar plants have been awarded Platinum Certification at CII's GreenCo Summit 2018 held at Chennai.

The coveted GreenCo Platinum Certification was based on the recently concluded assessment by a two-step evaluation process based on ten environmental parameters such as Water Management, Water Conservation, Energy Efficiency, Green Supply Chain, Life Cycle Assessment, GHG mitigation, Product Stewardship, Material Conservation, Recycling and Recyclability, Renewable Energy and Others.

The assessors congratulated the young and enthusiastic team of Sanand Plant for their learning attitude and lauded the efforts towards various green initiatives including considerable amount of renewable energy consumption (around 30%), significant reduction in greenhouse gas emissions and water consumption per car.

Vadodara: Carriage and wagon repair workshop bags green co-certificate

Pratnagar workshop is the first unit in the entire Western Railway to receive gold rating in the green co-certificate.

GreenCo rating is a holistic mechanism to assess the environmental performance of a company's activities under eight different parameters – energy efficiency, water conservation, renewable energy, green house gas emission reduction, material conservation and recycling & recyclables, waste management and green supply chain among others.

CII - Sohrabji Godrej Green Business Centre has developed the GreenCo, green company rating system. It is the only firm in India which is authorised by the government for GreenCo rating certification, a release issued by Vadodara railway division said.

"Pratnagar workshop is the first unit in the entire Western Railway to receive gold rating by GreenCo Certification. In Indian railways, a very few number of units have been certified by this gold rating," said Vadodara railway division PRO Khetraj Meena.

TIRUCHIRAPALLI

GreenCo Award for Golden Rock Workshop

SPECIAL CORRESPONDENT
TIRUCHI, JUNE 29, 2018 08:22 IST
UPDATED: JUNE 25, 2018 09:22 IST

For implementing best environment-friendly practices

The 90-year-old Golden Rock Railway Workshop at Tiruchi has bagged the GreenCo Award presented by Confederation of Indian Industry (CII) for implementing best environment-friendly practices besides putting in place water conservation, waste management and energy efficiency initiatives.

Engaged in a slew of activities, the workshop also received the Gold rating certification from CII for achieving the standards under the GreenCo. The GreenCo award was received by P.N Jha, Chief Workshop Manager of the Golden Rock Workshop, at the seventh edition of GreenCo Summit 2018 organised by CII in Chennai on Thursday.

The award was presented by T. Ramaswami, former Secretary, Department of Science and Technology, during the summit in which more than 200 industries participated.

A senior workshop official said the Golden Rock Railway Workshop was implementing a slew of best environment friendly practices as part of GreenCo movement in Indian Railway workshops.

Stringent assessment was done by CII assessors taking into account various green parameters such as energy efficiency, water re-cycling and conservation, renewable energy and waste management, materials recycling and mitigating green house gas emissions.

MCF, Raebareli emerges as railways' most green unit

The GreenCo Rating System of the CII is a first of its-kind rating system in the world that facilitates companies to improve their overall green performance.

The Modern Coach Factory (MCF) at Raebareli is the most green unit of the Indian Railways, according to the CII's GreenCo rating, the first such workshop of the national transporter to have achieved this milestone, officials said on Tuesday.

The GreenCo Rating System of the Confederation of Indian Industries (CII) is a first-of-its-kind rating system in the world that facilitates companies in improving their overall green performance.

Over the last three years, the MCF, which has received the "Platinum" rating, has reduced its fresh water consumption by 54 per cent per coach, energy consumption by 53 per cent per coach and paper usage by 54 per cent, according to official data.

The factory has developed six rainwater harvesting pits consisting of 12 borewells in its workshops and 13 rainwater harvesting pits in the township.

It has also developed six artificial waterbodies with an aggregate capacity of 60,000 kl to collect surface runoff and use it for recharging groundwater and irrigation purposes.

The has brought down the factory's fresh water consumption by 64 per cent per coach in the last three years.

AboutCII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India's development process. Founded in 1895, India's premier business association has around 9000 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from around 265 national and regional sectoral industry bodies. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues. Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with

civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

As a developmental institution working towards India's overall growth with a special focus on India@75 in 2022, the CII theme for 2018-19, India RISE : Responsible. Inclusive. Sustainable. Entrepreneurial emphasizes Industry's role in partnering Government to accelerate India's growth and development. The focus will be on key enablers such as job creation; skill development financing growth; promoting next gen manufacturing; sustainability; corporate social responsibility and governance and transparency.

With 65 offices, including 9 Centres of Excellence, in India, and 11 overseas offices in Australia, Bahrain, China, Egypt, France, Germany, Iran, Singapore, South Africa, UK, and USA, as well as institutional partnerships with 355 counterpart organizations in 126 countries, CII serves as a reference point for Indian industry and the international business community.
